

VIGNESHWARAN S

Full Stack Developer (MERN)

Chennai, India | +91 7338821735 | vvigneshwaran518@gmail.com | [GitHub](#) | [LinkedIn](#) | [LeetCode](#)

PROFESSIONAL SUMMARY

B.Tech Information Technology graduate (2021–2025) from Meenakshi College of Engineering with 4+ months of hands-on experience as a Full Stack Developer Intern at Zuntra. Proficient in React.js, Node.js, Express.js, MongoDB Atlas, NestJS, and PostgreSQL. Experienced in building scalable REST APIs, real-world platforms (client–freelancer, rental, dating apps), and cross-platform mobile apps with Flutter. Strong foundation in Java, Data Structures, and Algorithms with active LeetCode problem-solving. Seeking a Software Developer / Full Stack Developer role to build high-performance, scalable applications.

TECHNICAL SKILLS

Frontend: React.js, HTML5, CSS3, JavaScript (ES6+)

Backend: Node.js, Express.js, NestJS

Databases: MongoDB (Mongoose), PostgreSQL, Firebase, Supabase

Mobile: Flutter (cross-platform)

Languages: JavaScript, Core Java

Tools & DevOps: Git, GitHub, Postman, Prisma ORM, Agile / CI-CD

Concepts: REST API Design, Authentication Systems, Database Design, CRUD Operations, DSA

PROFESSIONAL EXPERIENCE

Zuntra — Full Stack Developer Intern

Nov 2025 – Present

- Working as a MERN Stack Full Stack Developer Intern contributing to end-to-end application development.
- Developing and maintaining web applications using React.js, Node.js, Express.js, and MongoDB.
- Building Huzzler, a full-scale client–freelancer platform with scalable architecture and high-utility features.
- Designing and implementing RESTful APIs, authentication systems, and backend services.
- Working on web and mobile development using React and Flutter.
- Gaining hands-on experience with modern backend technologies including NestJS and PostgreSQL.
- Collaborating in an agile environment using Git, GitHub, and Postman for version control and API testing.

PROJECTS

Huzzler – Client–Freelancer Platform — Full Stack Developer

2025

- Built a full-scale platform connecting clients and freelancers with scalable backend architecture.
- Implemented RESTful APIs, authentication, and role-based access control using Node.js and MongoDB.
- Developed React.js frontend with responsive UI and seamless API integration.

Rentit – Rental Property Platform (NoBroker-like) — Full Stack Developer

2025

- Developed a rental application for listing, searching, and managing properties using NestJS, PostgreSQL, and Prisma ORM.
- Developed RESTful APIs for property listings, user management, and booking workflows.
- Contributed to frontend/mobile development using Flutter for seamless user experience.

Dating Application — Full Stack Developer

2025

- Built a cross-platform mobile app using Flutter with responsive UI/UX across devices.
- Utilized Supabase for backend services including PostgreSQL, authentication, and real-time features.
- Implemented matching system, profile management, and real-time chat functionality.
- Integrated Supabase APIs for seamless data handling and real-time updates.

EDUCATION

Meenakshi College of Engineering, Chennai

2021 – 2025

B.Tech – Information Technology | CGPA: 7.74

CERTIFICATIONS & TRAINING

- Udemy – Full Stack Web Development (2024): Built responsive web applications with MongoDB, React.js, Node.js, Express.js, and REST API services.
- Shelnnovative Hackathon 2023 – Implemented a real-time communication and events platform for women's community using the MERN stack.
